Overview

- PTS offers a wide variety of Information Technology and Management Consulting services
- PTS provides consulting services to a number of State Agencies in Maryland and Commonwealth of Pennsylvania focusing on Human Services Program
- PTS' success had been a result of bringing the right people with the right skills and coupling that with industry standard and repeatable processes
- PTS has broad knowledge and experience in the full life cycle of software system development and implementation. Our consultants possess the blend of technical expertise and project management proficiency to track the entire process from the planning phase through process definition, requirements gathering, design, build, testing, deployment and on-going system maintenance
- Management Consulting is one of the PTS' core competencies. Our expertise lies in providing our clients timely, relevant and quality services in the areas of IT management consulting, specifically:
 - Strategic Planning
 - Project Management
 - Program Management Office (PMO) Implementation
 - Process Improvement
 - Contractor/ Project Assessments
 - Risk Assessment Analysis and Mitigation Planning
 - Quality Assurance and Quality Control (QA/QC)
 - Independent Verification and Validation (IV&V)

Expertise in Human Services
